STATISTICAL REVIEW

FORM OF GOVERNMENT—Mayor and council.

POPULATION—Official 1960 U. S. Census, 111,698. American-born, 83.9%. Predominating nationalities of foreign-born residents: German, Polish and Czechoslovakian.

AREA—27 square miles.

ALTITUDE—585 feet above sea level.

CLIMATE—Mean annual temperature, 49.2 degrees F.; average annual rainfall, 33.02 inches.

PARKS—16, with total of 732 acres, valued at \$2,250,000.

CHURCHES—70, representing leading denominations.

INDUSTRY—Chief industry is manufacturing. Principal manufactured products: Oils, soap products, foods, animal and dairy feeds, railway cars, railway supplies, clothing, metal castings, foundry products, refined metals, paper pulp products, heavy machinery and tin can manufacturing.

TRADE AREA—Retail area has radius of 150 miles, and population of 650,000.

NEWSPAPERS—1 daily and Sunday and 4 weekly.

HOTELS—4.

RAILROADS—10, including New York Central, Pennsylvania, Baltimore & Ohio, Erie, Monon, Nickel Plate and Wabash.

HIGHWAYS—U. S. 6, 12, 20, 30, 41 and Indiana Toll Road.

AIRPORTS—2 (near the city).

AMUSEMENTS—Largest auditorium in city seats 6,000 persons. 7 moving-picture theatres, with total seating capacity of 7,300 persons. 5 golf courses.

HOSPITALS—1, with 384 beds.

EDUCATION—22 public schools, including 5 senior high. 10 parochial schools. Value of public school property, \$10,000,000. Purdue University and St. Joseph's College Extension Centers.

PUBLIC LIBRARIES—9, including branches, with total of 142,000 volumes.

CITY STATISTICS—Total street mileage, 295.5, with 265 miles paved. Miles of sewers, 182. Capacity of water works, 65,000,000 gallons; daily average pumpage, 17,700,000 gallons; miles of mains, 250; value of plant, \$5,000,000. Fire department has 117 men, with 7 stations and 20 pieces of motor equipment. Police department has 120 men with 2 stations and 35 pieces of motor equipment.

LOCATION—Hammond is located in Lake County, the second largest county in Indiana, in the northwest corner of the state. It is twenty miles southeast of the Loop district of Chicago; 954 miles from New York; 304 miles from St. Louis; 442 miles from Minneapolis; 941 miles from New Orleans, and 2,281 miles from San Francisco.

BOUNDARIES—Hammond is bounded on the north by Lake Michigan, Whiting and East Chicago; on the east by Whiting, Gary and East Chicago; on the south by Little Calumet River, and on the west by Chicago, Calumet City, Burnham and Cook County, Ill.

POPULATION—The population of Hammond was 87,594 according to the 1950 U. S. Census. 1957 official, 108,305; 1960, 111,698.

The population of the Hammond trade area is approximately 650,000. Hammond directly adjoins Chicago, and for many purposes the trade area of Hammond is the trade area of Chicago, particularly for industrial purposes, which from that standpoint would give Hammond an additional industrial trade population of more than 3,500,000.

The growth of Hammond is reflected in the following population figures:

1900	12,376
1910	20,925
1920	36,004
1930	64,560
1940	70,184
1950	87,594
1960	111,698

The unusually favorable location of Hammond at the tip of Lake Michigan, in the center of population, at the waterway terminus of all directions, and with unequaled railway distribution, makes its future growth inevitable. No industrial location in the U. S. surpasses it.

GOVERNMENT

Hammond is governed by a city council form of government. The incumbent administration is headed by Mayor Edward C. Dowling, a Democrat.

The police and fire departments operate on a civil-service basis. The heads of these departments having been in office for years, is conclusive evidence of the high efficiency of these protective agencies.

The police department is equipped with a two-way radio system through which the possibility of crime has been greatly reduced.

Both the police and fire departments have gained national recognition because of the low annual fire loss and because of the very high standard of law enforcement.

TAXATION

The general attitude of officials in making assessments on real and personal property has been reasonable to industry. All assessments are subject to review by the State Tax Board.

There is a 2 per cent adjusted gross income tax, and a 2 per cent sales tax.

There is also an intangible tax of 25¢ for each \$100.

The adjusted gross-income tax of 2 per cent is withheld from all salaries, fees, wages, bonuses, commissions, etc., after the legal exemption.

TRANSPORTATION

Transportation facilities in Hammond offer direct or inter-connected facilities with all parts of the U. S. The city is accessible by railroad, electric railroad, state and federal highways, bus and truck lines, waterways and air lines.

RAILWAYS—Hammond is serviced by ten railway lines; three belt lines.

The ten trunk railway lines are: Baltimore & Ohio; Chesapeake & Ohio; Chicago & Erie; Chicago, Indianapolis & Louisville; Michigan Central; New York Central; New York, Chicago & St. Louis; Pennsylvania; Pittsburgh, Cincinnati, Chicago & St. Louis; Wabash.

In addition, the city is within the Chicago switching district and enjoys low freight rates, the same as those in Chicago. The three belt lines are the Baltimore & Ohio Chicago Terminal, the Elgin, Joliet & Eastern, and the Indiana Harbor Belt. These make available a fast direct service to all roads out of Chicago. Trap-car service also is available on belt lines for less-than-carload-lot shipments. Trap cars go to Indiana Harbor Belt switching yards, where shipments are consigned to the various lines, thus offering a faster and more efficient service.

The Indiana Harbor Belt Railroad's largest terminal, Gibson Yard, is located in Hammond. Cars from the industries of Hammond and Calumet City are made up in trains and run direct from Gibson Yard to all eastern, western and southern lines, making but one handling from the industries to any one trunk line over which the shipment may move.

ELECTRIC LINE—The Chicago, South Shore & South Bend Railroad provides a fast passenger and freight electric service to Chicago, passenger service operating

every thirty minutes and requiring 36 minutes from the Hammond station to the Randolph St. station in Chicago. Low roundtrip passenger fares are offered on commutation tickets.

BUS SERVICE—An inter-city bus service including Hammond, Calumet City, Whiting, East Chicago, Gary and Chicago is maintained by the Chicago-Calumet District Transit Co. In addition, there are electric railway services interconnecting these Calumet Region cities.

TRUCK SERVICE—Fast daily truck service is operated between Hammond and Chicago and numerous other points by a number of trucking companies. Hammond is the focal point for a large number of highly improved highways radiating in every direction.

WATERWAYS—Hammond is only a few miles from Indiana Harbor on Lake Michigan, which provides easy accessibility for water transportation. The Indiana Harbor is used by a number of large industries as a port for shipping to foreign countries, and also for receiving shipments from foreign ports.

The Great Lakes Dock Terminal maintains a shipping point at Indiana Harbor. Direct regular railway service is available to St. Louis and Cairo, Ill., for barge transportation on the Mississippi to the Gulf, and from there to other ports of the world.

AIRPORTS—Hammond is less than three-quarters of an hour by automobile from the Chicago O'Hare Airport, and from the Ford Airport at Lansing, Ill.

PUBLIC UTILITIES

ELECTRICITY—Electric energy for Hammond is available in unlimited quantities with a rate structure designed to encourage use by industries. The rate schedule for electric energy, which is provided by the Northern Indiana Public Service Co., is as low as can be found in any large industrial city. Hammond is the location of one of the largest steam-generating plants in the world, and the company is equipped to take care of any industrial demand.

GAS—A high-grade gas also is furnished by the Northern Indiana Public Service Co. at a very low rate for industrial users.

COAL—With coal mines in Indiana, Illinois, Kentucky, Pennsylvania and Virginia, Hammond is assured of a plentiful supply of cheap coal.

OIL—The largest oil refineries in the world are located within the Hammond district, and fuel oil is available at reasonable rates.

WATER—The City of Hammond owns its water plant, the supply coming from Lake Michigan, and the rate being a graduated scale based on the amount used. Hammond has the lowest water rate of any city in the section of Indiana.

A \$3,000,000 filtration plant, with ample storage capacity, guarantees a plentiful supply of the purest water for industrial and domestic use.

COMMUNICATIONS—Hammond is served by the Illinois Bell Telephone Co. and the Western Union Telegraph Co. It also has Radio Station WJOB, operating on 1,230 kilocycles.

PUBLISHING AND PRINTING

There are a number of printing establishments in Hammond that have a national clientele. Much Chicago printing is handled in these plants. The plants are equipped with all modern facilities for color printing, offset work, book-binding, and the printing and preparation of catalogs and mailing pieces.

There is one daily afternoon newspaper, The Hammond Times (Independent Republican). It receives full association and United Press services, and serves the entire trading area.

LABOR

Because of Hammond's location in the Calumet Region, there is a large supply of both skilled and unskilled labor. There is a good market for female workers, because of the large number of male workers employed in the steel mills and heavy metal industries where female labor is not employed.

There have been no major industrial disturbances over a number of years, and the general attitude of the city as a whole does not encourage labor troubles.

HOUSING AND LIVING COSTS

Hammond is the residential city for a number of the surrounding industrial cities that are unable to provide suitable housing of the better type and which have no expansion possibilities.

Because of Hammond being in the Chicago area, prevailing living costs are about the same as in that city. Rentals, taxes and utility costs are cheaper.

Hammond is located adjacent to a superior garden and trucking area, immediately contiguous to the Michigan-Indiana fruit belt, and also is close to the large meat-packing operations of the country, making these things available, with wide choice, and at reasonable prices.

COMMERCIAL ORGANIZATIONS

There are three commercial organizations giving direct service to the industrial and commercial interests of the city.

The Hammond Chamber of Commerce, the largest, with a membership of more than 1,300 composed of the representative professional and business concerns, is constantly promoting the general welfare of the city from a business standpoint and has a constructive program of activities.

The Hammond Safety Council, a division of the Chamber of Commerce, has been successful in maintaining low insurance rates through its work in fire-prevention, public safety, etc.

The Chamber of Commerce, with other organizations, is constantly active in a study of proposed budgets of the taxing units and has been a strong influence in maintaining a low tax rate. It has also given much attention to proposed legislation and has been successful in protecting the interests of the manufacturers in many legislative matters of a vital nature. The program of the Chamber of Commerce is a general one and always in the interest of the community as a whole.

The Hammond Junior Chamber of Commerce has a representative group of young executives, actively interested in civic affairs.

The Manufacturers' Association is composed only of manufacturers. This organization deals entirely with matters affecting the interests of its membership.

The Hammond Credit Exchange is composed of a large number of retailers. This organization is solely for the purpose of giving confidential credit information.

Other organizations active in matters in their particular fields of business activity are, the Hammond Real Estate Board, the Lake County Underwriters' Association, the Calumet Region Auto Parts Association, the Automobile Dealers, etc.

CIVIC ORGANIZATIONS, ETC.

Most of the civic, and practically all the fraternal organizations are represented in Hammond.

Rotary, Kiwanis, Lions, Optimists and Exchange represent the civic luncheon clubs. Also there are the active Women's Club, Junior Women's Club, League of Women Voters, Altrusa Club, American Legion Auxiliary, Parent-Teachers' Association and Business and Professional Women's Club.

All character-building and welfare work clears through the Hammond Community Chest Inc., which conducts an annual drive for a fixed sum to provide for these activities each year, thus relieving business organizations of solicitations more than once a year for these purposes.

Organizations which derive their support from this Association are:

Bethany Children's Home

Boy Scouts

Brooks House

Calumet City Charities and Health Center

Calumet Goodwill Industries
Carmelite Home for Boys
Catholic Charities and Social Service
General Relief Agency
Girl Scouts
Hammond Fresh Air Camp
Salvation Army
Young Women's Christian Association

EDUCATIONAL, RELIGIOUS AND CULTURAL FEATURES

SCHOOLS—The Hammond school system consists of sixteen grade schools, five high schools, one Catholic High school and ten parochial schools, all of which are staffed with highly competent teachers and instructors.

The Technical Vocational School is an important source of potential employee-leadership and offers a training course designed to fit young men to take their place in the industrial community.

There are two highly-rated privately-owned commercial schools, assuring an adequate supply of stenographic and secretarial help.

For those desiring higher education, extension courses are provided from the University of Indiana, and engineering courses are given from Purdue University, oftentimes specializing in such subjects as the heat-treatment of metals, electric welding, and kindred subjects of particular interests to manufacturers.

Many Hammond residents avail themselves of the opportunity to take night courses at the University of Chicago and Northwestern University.

CHURCHES—All denominations are represented in the religious life of Hammond—51 Protestant, nine Catholic, two Jewish and eight miscellaneous congregations.

LIBRARY—The Hammond Public Library consists of the Main Library, four branches in library owned buildings, and seven branches in elementary schools or rented quarters. Services include circulation of over a million books, pamphlets, records, maps, and documents each year, reference services, story hours, and instruction in library use.

RECREATION

PARKS—Hammond is equipped with all types of wholesome recreation. There are sixteen parks, with an acreage of 732, and a valuation of \$2,250,000. These parks are equipped with tennis courts and playgrounds with attractive landscaping.

GOLF—There are five golf courses within a few minutes of town—Woodmar Country Club, Wicker Park, Lansing Airport Course, Lake Hills, and Burnham Woods.

SWIMMING—There is swimming at modern pools in a number of the city parks. Numerous beaches are located in the Dunes territory and elsewhere within short distances of Hammond.

WICKER PARK—Within a few miles of Hammond is the famous Wicker Memorial Park, which is one of the few township-owned public parks in the country. It has 235 acres. This park is equipped with an 18-hole public golf course; picnic facilities, modern swimming pool, and other equipment which make it a popular place for company and organization outings.

SCOUTING—For boys and girls of scouting age, there are active scouting troops in Hammond. Both organizations maintain camps for Hammond boys and girls.

FOREST PRESERVES—Immediately across the state line in Cook County, providing bridle paths, trails and outing facilities is one of the Illinois forest preserves.

PUBLIC HEALTH

Hammond maintains an efficient health department under the direction of a board of health of three members, are in charge and a qualified physician, safe-

guarding the city against the spread of infectious and communicable diseases. The appropriation of this department provides for free analysis of milk and water in a well-equipped laboratory, and also for a registered nurse.

HOSPITALS

There is one hospital, St. Margaret's, operated by the Sisters of St. Francis, with a capacity of 384 beds and 80 bassinets. The hospital is fully equipped for surgery and for the proper care of patients. A \$7,288,000 expansion program is now in progress.

GARY

"THE NATION'S LARGEST TWENTIETH CENTURY CITY"

(Courtesy Gary Chamber of Commerce)

GENERAL REVIEW

Another soubriquet often applied to Gary is that of "The Magic City." More fact than fiction attaches to this description because, after a span of only 57 years, a teeming industrial metropolis thrives in the northern Indiana sand dunes where in 1906 only scrub oaks and sloughs marked a barren and desolate wasteland. The development of Indiana's second city has been rapid, but at the same time, deliberate and businesslike. It had its beginning in 1905, when advance agents of the U. S. Steel Corporation were searching for a site for new plants to serve the burgeoning midwestern market. It was necessary that these plants be in reasonably close proximity to the iron ore mines of northern Minnesota, as well as to northern limestone sources and the coalfields of the middlewest, south and east. When all factors were considered, including rail and water facilities for the transportation of raw materials to the plants and the finished products to market, Gary was the choice for this "Magic City" which now is known the world over as Indiana's "Steel City" and "The Pittsburgh of the Middlewest."

Engineers drove their first stakes for the start of this phenomenal development March 12, 1906. Appropriately enough, the city was named for the late Judge Elbert H. Gary, then board chairman of the U. S. Steel Corp. Since then, a pioneer "boom" town of 300-odd souls living in tents and tarpaper shacks has given way to an attractive community of handsome homes, schools, churches, libraries and parks, with a population of more than 186,000. In the building of Gary, great sand dunes were leveled, railroads relocated, a river bed straightened, hundreds of thousands of trees and shrubs planted, and hundreds of acres of sod laid down to transform the windswept reaches of sand into a modern, attractive community. A major factor in the development of the city during its first 40 years was the Gary Land Co., a subsidiary of the U. S. Steel, which directed the laying out of the first subdivisions and provided housing for the first big influxes of workers.

Within four years after its founding, Gary's population grew to 17,000 and the community became a city of the fourth class. The increased population paralleled the expansion of the U. S. Steel plant. Hundreds of modern homes were built and the business section improved and expanded accordingly. Gary reached the status of a second class city by 1915, and five years later the Federal Census credited it with 55,378 inhabitants. By 1930, the population had virtually doubled, reaching 100,426. It rose to 133,911 by 1950, to 178,320 by 1960, and to an estimated 186,000 by the end of 1963.

Aptly reflecting the cosmopolitan makeup of the community are many "Old Country" customs and traditions which survive among the families of foreign ex-

traction, families which, nevertheless, are rapidly becoming Americanized. Included among the religious groups are those of the Serbian, Greek and Russian Orthodox faiths which still follow the Julian calendar in their religious observances. International Institute, a volunteer organization fostered in the early days by the late W. P. Gleason, first general superintendent of the local steel plant, has been in a large measure responsible for the smooth and rapid orientation and Americanization of thousands of citizens of foreign origin. Other social service agencies which have made important contributions in this field include the Y.M.C.A. and Y.W.C.A., the Catholic Social Service Bureau, and several settlements, all now financed through a United Fund.

With two steel companies, Bethlehem and Midwest—spending more than \$350 million on new plant facilities on its eastern fringe, Gary is gradually shaking off the label of "one-industry" community. And with new homes going up at a rate of more than 750 a year, it is becoming known for the stability of its labor supply, a large part of which is skilled or semi-skilled. Like other port cities on lower Lake Michigan, it expects to "cash in" handsomely on the improvement of the St. Lawrence Seaway and the eastward extension of the Mississippi barge canal, and Indiana University is the source of the prediction that Gary may well boast a population of 210,000 by 1970. Gary is the central city of the Gary-Hammond-East Chicago Metropolitan Area (comprising all of Lake and Porter Counties) which was established in 1959.

The Gary Chamber of Commerce has devoted a great deal of its effort to extending the boundaries of the city's retail trading area, and, with this end in view, carries out numerous promotional projects in cooperation with the local newspaper, The Gary Post-Tribune. The newspaper's circulation exceeds 66,000, and it rates as one of the best edited and most effective advertising mediums in the middlewest. It is served by two press services (Associated Press and United Press International), and carries many popular national features, including the columns of Walter Lippman, Muriel Nissen, Edgar Ansel Mowrer, Hal Boyle, Art Buchwald, Andrew Tully, Roscoe Drummond, Edward Crankshaw, Joseph Alsop, Victor Reisel, Dr. Joseph G. Molner, Dr. George Gallup, Dr. George Crane, and others. The newspaper occupies a modern \$2 million publishing plant and employs about 275 persons. Also serving the mercantile community are the Gary Credit Bureau and the Northwest Indiana Better Business Bureau.

Literally a "crossroads of America" situated only 40 minutes driving distance from downtown Chicago, Gary annually attracts thousands of visitors from all over the world who come to inspect its famous schools, sewage treatment plant, spacious parks and playgrounds, scenic dunelands, and model library system, as well as its steel manufacturing and fabricating industries.

HOBART

"WHERE PRIDE AND PROGRESS MEET"

STATISTICAL REVIEW

Form of Government—Mayor-council. Incorporated as a city in 1922.

Population—18,680 (1960 U. S. Census). 21,000 (estimated 1964).

Area—14 square miles.

Altitude—620 feet above sea level.

Climate—Average temperature, January 23.3 degrees F.; July, 72 degrees F.

Average annual rainfall, 37.5 inches.

Parks—5.

Assessed Valuation—\$19,295,005.

Bonded Debt—\$162,000.

Financial Data—2 branch banks. One building and loan association, with assets of \$13,800,000.

Postal Receipts—\$145,000 (1963).

Churches—19, representing 13 denominations.

Trade Area—Retail area contains population of 60,000.

Newspapers—2 weeklies.

Railroads—3: Pennsylvania; Nickel Plate; Elgin, Joliet & Eastern.

Highways—U. S. 6; State 51.

Amusements and Recreation—One movie theatre, seating 600. 2 golf courses.

Education—7 public schools and 2 parochial schools. Number of pupils in public schools, 5,259, in parochial schools, 609; for a total of 5,868 pupils. Public school teachers, 218.

City Statistics—Total street mileage is in excess of 100 miles. Police force of 18 men and 5 pieces of motorized equipment. Fire department of 8 regulars and 18 part-time firemen and 8 pieces of motorized equipment. Number of electric meters, 6,208; number of gas meters, 5,377.

HISTORY

Hobart was founded in 1847 by George Earle when the Government Post Office was moved to this site. Earle laid out the plat of the town along the banks of Deep River and named the new community after his brother who had gone to Australia.

The new town was located on the Chicago-New York stagecoach route, then used extensively by the Forty-Niners in the California Gold Rush.

The damming of Deep River for use of a grist mill made Hobart a commercial center for farmers, and in 1858 the community had the distinction of being the first railroad center in Lake County. By 1870, Hobart was described as "having the air of a city." Its population was 500, and in addition to the railroad it had the finest hotel and the county's only art gallery. Brick-making was then the largest industry. The first bank was established in 1884.

The first organized religious congregation in Hobart was that of the Augustana Lutheran Church, which celebrated its centennial in 1962. Other early-established churches were the Methodists, 1869; Unitarian, 1872; Trinity Lutheran, 1873; and St. Bridget's, 1875.

The first town board was organized in 1889, and the first city government, in 1921.

GOVERNMENT

Hobart became a fourth-class city in 1950. The city government consists of a mayor, seven councilmen, a city clerk-treasurer and a city judge, elected every four years in odd-numbered years immediately preceding presidential election years. Hobart is divided into 5 councilmatic districts, with a councilman representing each district and two at-large, all of them elected at-large. The council meets in the city hall on the first and third Wednesday of each month.

The city council elects a bi-partisan school board, consisting of five members who serve staggered three-year terms.

The City operates a modern sewage-disposal plant and is currently expanding the treatment facilities as well as following a long-range plan in the construction of new sewer lines, expected to reach the west, south and east boundaries of the community within four years.

Hobart's city council adopted a master plan, prepared by the Purdue-Calumet Foundation, for the planned growth of the community. In June of 1964, the City Council annexed 3,300 acres. The portion lies south of Route 6, north of 61st Street, west of County Line Road and east of Mississippi Street. New ordinances have set aside desirable sections for light industry, and an industrial foundation has been established to facilitate the coming of such to the community. A new distributing center for a large milk company was established in the newly-zoned area in the spring of 1961.

Other recent ordinances have provided high standards in home construction and property use which protect the high level of community life prevalent in every section of the city.

RESIDENTIAL FEATURES

Hobart is a scenic, sprawling community which bridges a gap between large industry and rural tranquility. The majority of the citizens gain their livelihood in the Calumet industries to the north and west of Hobart, but prefer to raise their children under the leisurely influence of the open acres to the south.

Sixty years older than its giant neighbor, Gary, Ind., Hobart remains a proud and individualistic town, although its population has doubled in the past dozen years. Few communities have blended their love of tradition with the needs of progress as well as has Hobart in recent years. This is a community where an old-fashioned parade can start up on the slightest excuse, but not a tear will be shed for a building that must come down to provide shopping. Hobart has two expanding shopping districts in addition to the downtown area. There are thriving business districts on the east and west sides of town.

Residential property ranges from the modest, well-groomed bungalow to the highest-priced, modern executive home. Visitors frequently comment on the beauty of the individual yards in Hobart, there being virtually no sub-standard dwellings or neglected properties in the community.

Traffic-safety and fire-protection records in Hobart are outstanding among Indiana cities, and good utilities are available. The Gary-Hobart Water Corp. furnishes water, and the Northern Indiana Public Service Co. furnishes gas and electricity. The General Telephone Co. of Indiana recently completed a new dial service center in the community.

PUBLIC LIBRARY

The Hobart Public Library building was erected in 1915 following fund-raising efforts of the Hobart Woman's Club and aided by a Carnegie Foundation grant. It was established as a township library and subsequently became a part of the Lake County Library system.

The Lake County Library system is contemplating the enlarging of Hobart's present library or the building of a new one.

RECREATION

Lake George is the focal point for the scenic and recreational activities of Hobart. Lake View and Fred Rose parks lie along two shores of the lake, and area parks also have been established. The lake is used for boating, fishing and skating, and a rustic scout cabin on the north bluff is the recreation center for hundreds of Hobart boys and girls.

The City Ball Park is located on 8th St., west of Lincoln. Hobart's Little League Park, at 8th and Lake Park, is considered one of the finest in Indiana, and basketball and baseball activities are enjoyed through cooperation of various local groups with the school system facilities. Hunting in the marshes south of Hobart and sledding in the ravines are followed by many residents.

In addition to numerous women's and men's clubs and service organizations, Hobart has a Youth Center Organization; a Conservation Department gun club; an active Izaak Walton organization, with clubhouse on the lake accommodating many worth-while activities; a Players Guild theatre group, and a boat and ski club. One of the most recent organizations to be established is the Hobart Y.M.C.A. The "Y" purchased the former telephone company building to house its activities, which serve all ages. The Hobart "Y" is now a branch of the Gary area Y.M.C.A. and will soon start construction on a new building in Hobart. Many Hobart young people also take part in C.Y.O. activities, provided by the Gary Catholic Diocese.

NEWSPAPERS

Two weekly newspapers, the Hobart Gazette, published in the city, and the Hobart edition of the Hearld Newspapers, published in nearby Merrillville, serve the Hobart community. The Gary Post Tribune and Chicago daily papers also have a large local circulation.

TRANSPORTATION

Gary Intercity Line, Inc., serves the Hobart-to-Gary route, with 25 round trips daily.

Public transportation to Chicago is provided from Gary via the South Shore Illinois Central system, and two trips daily are provided for commuters via the Pennsylvania system.

Most commuters to the Chicago metropolitan areas use the Indiana Toll Road system, which joins the Chicago Skyway route into the heart of Chicago, or the Tri-State system, which joins the Illinois Toll Road.

Both of these routes are easily accessible to Hobart drivers.

Commuters to the industrial areas use U. S. No. 6, which bounds the north edge of Hobart, or U. S. No. 30, which parallels U. S. No. 6 two miles south of Hobart. State Highway No. 51 runs north and south through the community, and State Highway No. 130 runs southeast from Hobart to Valparaiso. (See Statistical Review for names of railroads).

SCHOOLS

Enrollment in the Hobart public schools in 1961 was 4,076, with 169 teachers. Five elementary schools, grades one through six, are located in centers of residential population. Lake Shore is a special school for retarded children. The Junior High School (7, 8, 9) is situated at 4th and New Streets, and the High School (10, 11, 12) is on 8th St. The superintendent of Schools and Director of Pupil Personnel have offices in the Administration building at 655 E. 4th St.

Hobart High School, accredited by the North Central Association of Secondary Schools and Colleges, has long been noted for its high scholastic standards and prominence in sports and music. The band, organized by Wm. D. Revelli in 1925, has won national recognition.

There are two parochial schools, St. Bridget's Catholic, located on Main St. (center), and Trinity Lutheran, at 9th and Linda Streets (south), serving grades one through eight. St. Bridget's Catholic Church is in process of building a new, modern school.

Kindergartens are conducted in all elementary public schools and in both parochial schools.

A program of adult education is carried out in winter night school and summer, with a limited number of classes offered to high school students in the summer.

Hobart is six miles from the campus of Indiana University, Gary Center, and 20 miles from Valparaiso University and Valparaiso Technical Institute. Purdue University and St. Joseph's College have extension programs in nearby cities.

STREET GUIDE

INCLUDING CALUMET CITY, ILLINOIS, MUNSTER & WHITING,
INDIANA

Explanation

In the following lists the numbered streets are arranged in numerical order followed by named streets in alphabetical order, the intersecting streets being shown.

The word street is not used. Where a designation Av, Cir, Ter, etc., does not appear, the street designation is understood.

Names of the cities or towns, in which each street is located, is shown in parenthesis immediately following the street name.

COPYRIGHT, MCMLXVI, BY R. L. POLK & CO.

GARY

STREET GUIDE

Explanation

In the following lists the numbered streets are arranged in numerical order followed by named streets in alphabetical order, the intersecting streets being shown.

The word street is not used. Where a designation Av, Cir, Ter, etc., does not appear, the street designation is understood.

Names of the cities or towns, in which each street is located, is shown in parenthesis immediately following the street name.

STREET GUIDE

Explanation

In the following lists the numbered streets are arranged in numerical order followed by named streets in alphabetical order, the intersecting streets being shown.

The word street is not used. Where a designation Av, Cir, Ter, etc., does not appear, the street designation is understood.

Names of the cities or towns, in which each street is located, is shown in parenthesis immediately following the street name.
